

Orange County Wild Stewardship Opportunities

Stewardship Providers

The following is a list of Orange County wilderness land managers and stewards, including non-profit organizations, state, county and city park systems, and public conservancy groups who offer opportunities for community service and volunteerism. Stewardship opportunities usually consist of non-native plant removal and planting of natives. Restoring habitat helps provide homes for animals and makes our wild places healthy and more enjoyable.

About Orange County Wild

Orange County Wild's mission is to educate the public about the importance of preserving, protecting, and enhancing our wildland forest, park and reserve resources from the mountains to the Pacific. OC Wild is a coalition of Orange County wilderness land managers and stewards dedicated to increasing interest in Orange County parks and reserves. Through its support of public programs, Orange County Wild hopes to prepare California's children for their role as stewards of our public lands.
